Michael,

We can get you the designs themselves to you separately of 5K+ from Alex and Jacki.

Is that adequate for tomorrow?

We can then provide the signed Final Design package to you Monday.

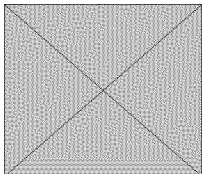

Are the property designs above 5K adequate for tomorrow?

Unfortunately, I need that subset package by mid-day tomorrow at the absolute latest.

Michael,

I can make these edits BUT can we wait to send the Final Design package next Monday?

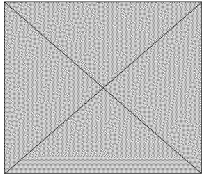

Jim Wescott, as Responsible P. E. in Indiana, and Rik Lantz will both be available to sign the document in person. We need these for you to have a signed and sealed design package.

JD and Rik,

Great job. I have a few small edits and then it can be resubmitted as final.

Once you have the final version, please create a set that includes the individual designs that go along with the 5K+ map that you guys generated the other day (and the map too). I have attached the table that you guys sent which lists those “properties” in this subset of Zone1.

My limited comments on the RD:

Page 7, 2.1 first paragraph 4 large parcels

Page 13, 2.4.2 puts quotes around the word parcels in the first paragraph as they are not real parcels

Page 14, 3 Delete the first sentence. Delete the beginning of the second sentence “as a result”

Page 16, 3.1.4 first sentence, insert “East Chicago Housing Authority” after “East Chicago”

I have no comments on the tech specs

Michael,

Please find attached the Draft Final Design documents for the USS Lead Zone 1 as you have requested.

The detailed design documents for each property are contained on PDFs (referred to as Appendix A) which will be placed on the FTP site for your use. When you need a CD or other file containing all the Zone 1 designs, please let SulTRAC know and we will provide the appropriate transfer mechanism.

Please contact me at your convenience with any comments or questions.

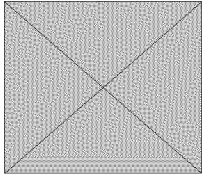

Sent for Rik Lantz, Project Manager.
